New and Magnificent Costumes. Sale of seats Wednesday at l'ierce's.

Why You Feel

So weak and exhausted is because your blood is impure. As well expect the sanitary condition of a city to be perfect with defiled water and defective sewerage, as to expect such a complicated piece of mechanism as the human frame to be in good order with impure blood circulating even to its minutest veins. Do you know that every drop of your two or three gallens of blood passes through the heart and lungs in about two and a half minutes, and that, on its way, it makes bone and muscle, brain and nerve, and all other solids and fluids of the body? The blood is the great nourisher, or, as the Bible

"The Life of the Body."

Is it any wonder, then, that if the blood be not pure and perfect in its constituents, you suffer so many indescribable

Ayer's Sarsaparilla stands "hend and shoulders" above every other Alterative and Blood Medicine. As proof, read these reliable testimonies:

G. C. Brock, of Lowell, Mass., says:
"For the past 25 years I have sold Ayer's Sarsaparilla. In my common, the best remedial agencies for the cure of all the diseases arising from impurities of the blood are contained in this modificial."

Eugene I. Hill, M. D., 381 Sixth Ave., New York, says: "As a blood-purifier and general builder-up of the system, I have never found anything to equal Ayer's Sarsapariin. It gives perfect Ayer's Sarsaparilla proves equally

Ayer's Sarsaparilla does sell." Prepared by

Dr. J. C. Ayer & Co., Lowell, Mass. Price \$1; air bottles, \$5. Worth \$5 a bottle.

Batchelor's Celebrated Hair Dye.

A Day's Contest.

The sun in his majesty rose in the morning.

The collar stood high in its deep set pride:
A few flushing rays were sent on as a warning.
But the collar, ne'er faltering, the message

The sun reached the midst of his journey diurnal, And passed for a time o'er that collar new; He melted the starch with a heat quite infernal, And soaked it with damp perspiration clear

The sun in the west o'er the city was beaming, But ere he retired neath the hills that night He looked for the collar with white glossy gleaming.

And grinned when he found it had sunk out of

-Merchant Traveler

How Creoles Cook Crabs. The creole style of cooking hard shell crabs is highly approved by epicures, but it doesn't recommend itself to Mr. Bergh's society for the prevention of cruelty. A big iron pot is put over a very hot fire. The bottom of the pot is then covered with, say, three pints of the best white wine vinegar, into which a few pinches of salt are thrown. Upon this is sprinkled red pepper. Then two or three narrow sticks are placed above the liquid, the ends rest-

ing at the sides of the pot. The cover is put conveniently by for hurried action. Then the live crabs are packed in to the full and the cover is put on. The steam of the condiments soon enwraps them, and when the carapax is cardinal red, "a dish fit for the gods" is ready for the refriger tor and then for the table. It is said by those who have eaten crabs cooked in this peculiar way that the natural moisture and flavor of the meat are preserved and that the boiled condiments give singular siquancy to it. Baked tomatoes partly stuffed with crab meat is a new delicacy and a juicy tomato with a layer of crab meat cooked creole style isn't so bad. It is called yum-yum and is fully entitled to its suggestive designation.—New York Times.

The First Circular Saw. The circular saw was in operation for sawing lumber on our falls some years previous to 1820. The inventors of the circular saw were Messrs. Jacquith & Eastman, who carried on the manufacture of lumber in the cove, their mill occupy-ing the site where the pulp mill now stands. I well remember seeing this saw in operation previous to 1820, cutting out clapboards. The logs were sawed into four feet lengths and placed on a machine propelled by water power, and somewhat propelled by water power and somewhat similar to a turning lathe, where the bark and sap wood were taken off. They were then fastened on the clapboard were then fastened on the clapboard machine, the log turning on its center and a row of clapboards cut off by a circular saw around the log, and if the log was of sufficient dimensions a second row was taken off. The log was propelled back and forward and turned by machinery, giving the thickness of a clapboard by an index without the aid of a nill was. The index without the aid of a mill man. The machine was considered a great invention at the time and attracted much attention from strangers visiting the town. - Bruns

Splendid Shooting in Austria. From a recent statistical report issued by the minister of agriculture, Austria still offers splendid shooting to Nimrods. There were killed last year throughout the empire 11,708 stags, 58,067 deer, 6,911 chamois, 2,566 boars, 1,319,098 hares, 60,907 rabbits, 455 marmots, 12,764 woodcocks, 9,931 hazel hens, 100,954 pheasants, 1,166,104 partridges, 83,627 quails, 48,150 snipe, 1,165 wild geese and 55,187 wild lucks. In addition, the hunt after animals of prey was no less successful, there having been killed 33 bears, 123 welves, 27 lynxes, 25,242 foxes, 27,306 polecats, 1,005 otters, 2,459 badgers, 970 eagles, 119,798 hawks and 1,156 owls. The El Dorado for hunters, however, is

the Ionian islands were in possession of the British, many officers of the garrison made hunting trips to the coast of Dal- A National country, but the accommodations were so sonby itants were so repellent as to cause a gradual diminution in the number of these

angerous hunting expeditions. - San Francisco Chronicle. Mysteries of Astrology.

movement to revive the mysterious have pitched upon astrology and have discovered a learned pundit in the person of a venerable English physician, who, although not an advertised astrologer, is said to be an adept in this science, which has been praceiced in Dr. B.'s family for three generations. Several Wall street brokers are in the councils of this sage, who will venture no praches. Now that Heron Allen and palmistry the importation of contract labor. who will venture no prophecy unless he knows the exact date and place of the subject's birth. Given the data, he will prophesy with surprising confidence. W. W. Astor and Grace Greenwood, the author, are among those who have made tests of these physician astrologers.-New

York Graphic.

To Promote Patriotism movement would be calculated to promote a feeling of patriotism among the papers especially among the younger element of the community. No concert or dramatic performance is given in Great Britain that performance is given in Great Britain that about twenty years: I had lost sense of smell entirely for the last fifteen years, and smell entirely for the last fifteen years, and is not closed with the singing or playing of the national anthem. Who will begin the movement here in the United States! 8500 Reward

Is offered, in good faith, by the manufacture torers of Dr. Sage's Catarrh Remedy for a case of catarrh which they cannot cure. It is mild, soothing and healing in its effects, and cures "cold in the head," catarrhal deafness, throat ailments, and many other complications of this distressing disease. Fifty cents, by druggists.

Emin Bey. in a letter, says he will not return with Stanley.

We know of no mode of treatment which offers, to sufferers from chrome diseases, a more certain hope of cure than that which is comprehended in the use of Ayer's Sarsaparilla. For purifying and invigorating the blood, this preparation is unequaled.

If from all fevers and all contagious diseases. The eminent physician, J. Marion Sims, M. D. New York, says: "I am convinced that Prof. Darby's Prophylactic Fluid is a most valuable disinfectant." offers, to sufferers from chronic diseases, a
